Subject: Release of Updated Contract Year (CY) 2025 Part D Reporting Requirements and Technical Specifications

The Centers for Medicare & Medicaid Services (CMS) released updated CY 2025 Part D Reporting Requirements. We made a non-substantive change to remove the Reopenings Plan ID element in the Coverage Determinations, Redeterminations (including–Risk Redeterminations under a Drug Management Program), and Reopening reporting section since this section is collected at the Contract level. We also released the Technical Specifications after considering comments on the draft Technical Specifications for the Medicare Prescription Payment Plan reporting section.

Both documents have been posted on the CMS website at the following link and will also be available on the HPMS Plan Reporting site in January 2025:

Questions regarding the CY 2025 Part D Reporting Requirements and Technical Specifications should be emailed to partd-planreporting@cms.hhs.gov. Emails should include the title of the specific data element to which your question applies in the subject line.

Thank you.
